

James Island Public Service District
Dedicated to Public Service Excellence

ISLAND UPDATE

Number 116 | May 2019

Upcoming Holiday

Memorial Day
Monday, May 27th

Our offices will be closed and there will be no garbage or trash collection on this day. Collection will occur one day later than your regular service day. Please call Solid Waste Services at (843) 762-5260 with any questions. Residents who experience wastewater emergencies should call (843) 795-2345.

Moving?

Be sure to notify Customer Service with any account changes by calling 843-795-9060.

Upcoming Commission Mtgs:

**Revenues & Expenditures
Workshop - 5/6/19 @ 7 pm**

**Ways & Means Committee -
5/13/19 @ 7 pm**

**Regular Meeting –
5/20/19 @ 7 pm**

*Meetings are open to the public.
For meeting agendas visit us
online at www.jipspd.org.*

Current JIPSD Wastewater Construction Projects

Project maps can be found by visiting

<https://www.jipspd.org/services-departments/wastewater/>

PS#2 Force Main Upgrade & Diversion

Lift Station 2 is a major lift station located on Central Park Road at the intersection of Fleming Road. Currently, wastewater travels from Lift Station 2 to multiple lift stations before reaching the wastewater treatment plant on Plum Island.

This project was needed to reduce the amount of energy used to get the wastewater to the treatment plant while at the same time increase the capacity of the system due to growth on James Island. The project consists of installing 9,400 feet of force main down Central Park Road, crossing under Folly Road, under the James Island Expressway to Harbor View Road and eventually terminating at Harbor View Circle. Minimal traffic interruptions are expected as the majority of this project will be performed off the side of the road.

The project was placed out for bid and awarded to R.H. Moore in the amount of \$5,263,756. Construction is expected to be completed by the end of 2019.

SSES Found Projects, Phase I

In 2017 JIPSD conducted a Sanitary Sewer Evaluation Survey (SSES) across the Island. The SSES was used to identify defects in the wastewater system. Using the findings of the SSES, JIPSD has developed a multi-phase rehabilitation plan for the system.

Phase 1 of the project will take place in Westchester and Greencrest neighborhoods as well as neighborhoods off Grimball Road, South Grimball Road, and Grimball Road Extension. Work will include gravity main line cure-in-place-pipe (CIPP) lining, gravity main line point repairs, and manhole structure repairs.

Occasional night work and temporary lane closures are expected.

The project was placed out for bid and awarded to IPR Southeast, LLC in the amount of \$309,893.50. Construction is expected to be completed by July 2019.
